URBICANDE

Security By Design

LA BARRIÈRE AUTOMATIQUE
GROUP LBA

When urban security meets design

The collaboration between **La Barrière Automatique** and **Jean-Michel Wilmotte** brings a new vision to urban protection.

This collection of high-security urban furniture combines exceptional engineering with refined architectural design, offering solutions that strengthen public spaces without compromising their aesthetic quality.

Every element reflects **La Barrière Automatique**'s long-standing expertise in impact protection and Wilmotte's signature approach to clarity, proportion, and timeless elegance.

Dimensions	Ø 9 cm - H 1 m
Crash-test certified performance	3.5t at 40 km/h
Variations	H 1.2 m Contrasting head

URBICANDE slim post

Urbicande evokes a city where every line is designed to endure. The collection embodies calm, geometric strength and the ability to absorb impact while maintaining the harmony of its surroundings. It is a dialogue between form and function, where protection becomes part of the architectural landscape.

PLANTER BOXES

"I have always viewed public spaces as places of encounter and elegance.
Working with La Barrière Automatique allowed us to combine this vision with essential safety requirements.
The collection we designed reconciles technical precision with architectural quality."

Jean-Michel WILMOTTE
Urban planner / Architect / Designer

URBICANDE

Urbicande evokes a city where every line is designed to endure. The collection embodies calm, geometric strength and the ability to absorb impact while maintaining the harmony of its surroundings. It is a dialogue between form and function, where protection becomes part of the architectural landscape.
